

GRANT PROGRAM OVERVIEW

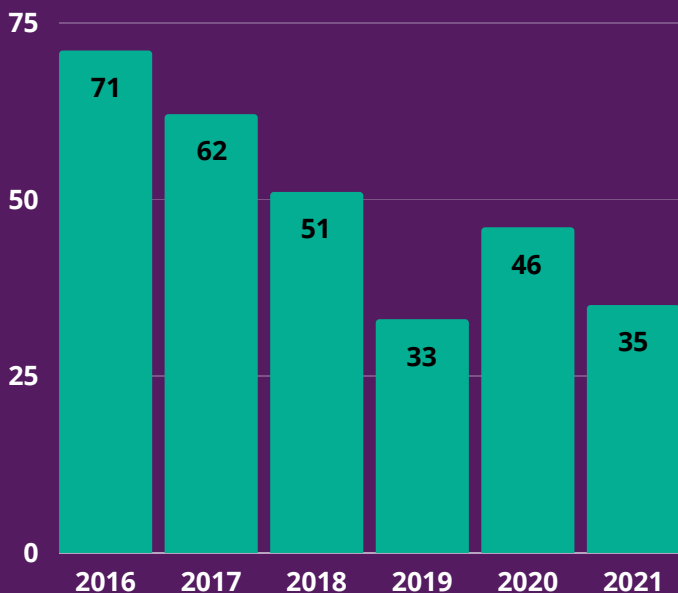

The Fixing America's Surface Transportation (FAST) Act established the ATCMTD Program to help fund the development and deployment of advanced transportation technologies to improve safety, efficiency, system performance, and infrastructure return on investment.

ATCMTD has granted funds to 58 projects nationwide from Fiscal Year (FY) 2016 to FY 2021.

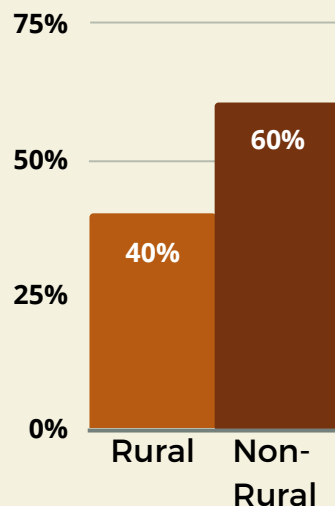

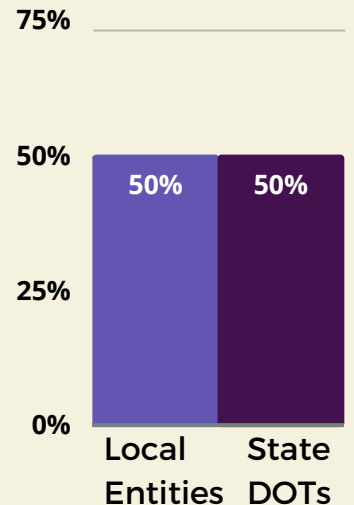

2016	\$1.5M to \$10.0M
2017	\$1.0M to \$10.1M
2018	\$2.4M to \$11.9M
2019	\$1.6M to \$11.9M
2020	\$3.0M to \$11.0M
2021	\$1.4M to \$8.7M

ATCMTD is a highly competitive program. Each year, 8 to 10 projects were selected from a pool of 33 to 71 applications.

Projects have been awarded equally between State departments of transportation (DOTs) and local entities.

Over one-third of awarded projects were in rural areas, while most were in non-rural areas.
